

## KARO LYNN - a line in my skin

"a line in my skin" is Karo Lynn's third album and a musical and emotional evolution that shows the songwriter outgrowing and expanding her sonic universe. Between Daughter, Ben Howard or The National, Karo moves from ballads in slow motion, to pop songs full of groove and ear candy to powerful midtempo numbers. With two guest vocalists, Johanna Amelie and Native, and long-time collaborator and producer Cornelius Miller, Karo Lynn explores a new mixture of genres and sounds on eleven new songs. She displays an openness and a musical progression that lingers, engrosses, but never lets go.
